GartnerGroup TCO Model

Distributed Computing Chart of Accounts

The GartnerGroup TCO Model - Distributed Computing Chart of Accounts provides a method in which costs are divided into defined categories such that costs between different organizations and groups can be simulated and analyzed in a consistent, reliable and detailed fashion. Without consistent cost categories with defined scope, costs collected by various groups would be different, making comparisons and resultant conclusions impossible.

The GartnerGroup TCO Model utilizes two major categories to organize costs:

- Direct (budgeted) costs are the capital, fees, and labor costs spent by the corporate IS department, business unit and department IS groups in delivering Information Technology services and solutions to the organization and users. Costs include hardware and software expenses, IS operations labor, service desk labor, IS finance and administration labor, outsourced management and support fees. The direct cost models typical costs and captures actual costs for all direct expenses related to the clients (mobile and desktop), servers, peripherals, and network in the distributed computing environment and serving the distributed computing users.
- Indirect (unbudgeted) costs measure the efficiency of IS in delivering expected services to end users. If the IS management and solutions are efficient, end users are less likely to be burdened with self and peer support, as well as downtime. If the IS management and solutions are inefficient, end users typically must spend more time supporting themselves and each other (self and peer support), and are impacted by more downtime. These costs often are hidden in most organizations and are not measured or tracked. Because of this, many organizations undertake direct cost reduction programs, but can unknowingly transfer the burden or support and unreliability to the end users. Our research shows that inefficient or overly aggressive spending cuts can lead to a USD\$4 in lost productivity for every USD\$1 saved. One can view Indirect costs as a second order effect that the IS spending, or lack thereof, has on the organization. It cannot be measured directly, and there is not always a direct causal relationship, but efficient IS spending can have a direct positive impact on end user productivity while inefficient spending or cuts can cost an organization more in lost productivity than what was saved in spending cuts.

The following major cost categories are used in the GartnerGroup TCO Model.

Nothing herein shall preclude a contract from requiring submission of an invoice for final payment within a certain time after completion and acceptance of the work or acceptance of the goods. Pendency of claims shall not delay payment of amounts agreed due in the final payment. The public body will render its final decision in writing within 30 days after its receipt of Contractor's written claim.

A Contractor may not institute legal action prior to receipt of the purchasing agency's decision on the claim, unless that Agency fails to render such decision within thirty (30) days. The decision of the purchasing agency shall be final and conclusive unless the Contractor, within six (6) months of the date of the final decision on the claim, invokes appropriate action under Section 11-70, Code of Virginia or Administrative Appeals Procedure Section 11-71, Code of Virginia.

Any dispute, claim, or cause of action filed by Contractor (or any party making such claim on behalf of or under the rights of Contractor, his agents or any subcontractor) shall be governed by Sections 11-69, 11-70, 11-71, Code of Virginia (1950), as amended, and any period of limitation set forth therein.

In no event, however, shall the rate of interest exceed the rate of interest established pursuant to Section 58.1-15 of the Code of Virginia.

c. Notwithstanding paragraphs 27.a and 27.b, no interest penalty shall be charged when payment is delayed because of disagreement between the Commonwealth and the Contractor regarding the quantity, quality or time of delivery of the services delivered under this Agreement, or the accuracy of any invoice received for such service.

The Contractor shall pay interest to the subcontractor on all amounts owed by the Contractor that remain unpaid after seven days following receipt by the Contractor of payment from the Commonwealth for work performed by the subcontractor, except for amounts withheld as allowed in "(b)" above. The Contractor shall provide its federal employer identification number (or social security number, if Contractor is an individual) to the Commonwealth as required by Section 11.62 (2) of the Code of Virginia. Unless otherwise provided under the terms of this Contract, interest shall accrue at the rate of one percent per month. The Contractor shall include in each of its subcontracts a provision requiring each subcontractor to be subject to the same payment and interest requirements with respect to each lower-tier subcontractor.

Nothing in this Section 30 shall be construed as creating any obligation on the part of the Commonwealth or as authorizing any additional charge to the Commonwealth.

31. THIRD PARTY BILLING

All goods or services provided under this Agreement, that are to be paid for with public funds, shall be billed by the Contractor at the contract price, regardless of which public agency is being billed.

32. INTELLECTUAL PROPERTY RIGHTS

The Contractor must report the quarterly dollar value, in U.S. dollars and rounded to the nearest whole dollar, of all sales under this Contract by calendar quarter; i.e., January through March, April through June, July through September, and October through December. The dollar value of a sale is the price paid by the user for products and services on a Contract order as recorded by the Contractor. The reported Contract sales value must include the Industrial Funding Adjustment, as delineated in paragraph entitled "Industrial Funding Adjustment". The Contractor shall provide this report in hard copy to the Controller, DIT, and a copy of the report to the Contracts Manager, DIT, both within 30 days after the end of each quarterly reporting period as defined herein. The report must show each individual item and quantities purchased and the purchaser. The report is required to be hard copy. DIT may at a later time, agree to an electronic version of the report, however, in lieu of any express agreement by both parties as to the electronic format, the Commonwealth will only accept a hardcopy version. The IFA reimburses the Commonwealth and defrays the costs for IT procurement and the administration of the subsequent awards. The IFA amount due must be paid by check with identification of "Contract number", "report amounts", and "report period", on either the check stub or other remittance material. DIT may at its discretion, agree to an electronic funds transfer, in lieu of a check, however in the absence of an express written agreement from DIT that validates the electronic funds transfer, then the payment shall be made by check as described herein made payable to the Controller, DIT.

If the full amount of the IFA is not paid within 30 calendar days after the end of the applicable reporting period, it shall constitute a Contract debt to the Commonwealth of Virginia, and the State may exercise all rights and remedies available under law. Failure to submit sales reports, falsification

of sales reports, and or failure to pay the IFA in a timely manner may result in termination or cancellation of this Contract. Willful failure or refusal to furnish the required reports, falsification of sales reports, or failure to make timely payment of the IFA constitutes sufficient cause for terminating this Contract for default.

It is the intent of the Commonwealth to capture 2% of all sales, including temporary reduced pricing, fire sales, one time sales, trade ins, promotional items that have been marked down and all sales to the Commonwealth under this Agreement.
